DE Die Pflanzgefäße der Groover Collection werden aus recycelten Materialien hergestellt, wobei die Farbe des Gefäßes von einem spezifischen Recyclingmaterial bestimmt wird. So entsteht die beige Variante aus Sägemehl, die grüne aus Kunstrasen und die schwarze aus recycelten Textilien. Die Gefäße sind frost-, bruch- und UV-beständig sowie zu 100 % recycelbar. Für den Einsatz im Freien wird empfohlen, ein Entwässerungsloch in den Boden zu bohren.

EN The planters in the Groover Collection are made from recycled materials, with the color of each planter determined by a specific type of recycled material. The beige version is made from sawdust, the green one from artificial grass, and the black one from recycled textiles. The planters are frost-, break-, and UV-resistant and 100% recyclable. For outdoor use, it is recommended to drill a drainage hole in the bottom.

Groove Black & Ivory

The Groove collection is, as the name says, inspired by grooves. From the vertical grooves in rocks and mountains that arise from natural changes occurring over the years.

The Groove black and ivory colours in this series strengthen each other. Because of the natural colours they are perfect to combine together.

Use our indoor pots to **grow herbs** in your kitchen.

 Without water hole, but may not be 100% watertight
